

NewHeartValve.co.nz

A patient's guide to heart valve disease

NewHeartValve.com.au provides patients and caregivers information on aortic stenosis. The website assists in recognising symptoms, information on treatment options and supporting tools to assist with talking with their doctor.

Did you know **1 in 8 people** over the age of 75 have moderate or severe **heart valve disease?**¹

Some of the features include:

- Easy access to patient brochures and free info kits
 - Streamlined Doctor Discussion Guide to help encourage and prepare patients to talk to their doctors about their symptoms
- Engaging and short patient videos telling their story from the patient's perspective
 - Full-length procedural animations are also available to show you how valve replacements are performed

The screenshot shows a navigation menu on the left with options: Overview, Free Info Kit, Videos, Brochures (highlighted), FAQs, and Glossary. The main content area is titled "Brochures" and contains the text: "Heart valve disease and aortic stenosis don't wait and you shouldn't wait either to seek help. Our [downloadable](#) brochures provide the detailed information you need to make informed decisions about your health." Below this text is a card for "Aortic Stenosis" with a thumbnail image of a doctor and patient, the text "Explore the causes of aortic stenosis, who is affected, how it is diagnosed and the available treatment options.", and a "Download Now" button.

The screenshot shows a section titled "Guide for Talking to Your Doctor" with the text: "There are two ways to use this guide:". Below this are two options: "Personalize Your Guide" (with a "Personalize Your Guide" button) and "View & Print Guide" (with a "View & Print Guide" button). Below this is a video player with a play button and the text: "Explore treatment options for severe aortic stenosis". Below the video player is a "Learn more" button and a "Play Video" button.

Additional features include:

- Patient FAQs
- Glossary of complicated terms related to severe aortic stenosis and treatment options
